set

The instrument cluster display is a rectangular LCD screen with a black background and white graphics. It features several data points: a large circular speedometer on the left with a needle pointing to 00 and the text '00' below it; a digital clock at the top right showing '11:34'; a battery level indicator in the center right showing a battery icon with horizontal bars; a fuel level indicator on the far right showing a fuel tank icon with '100% L' above it and '4' below it; and a digital odometer at the bottom center showing '3226' with a small icon to its left and the text 'eff' above it. The unit 'km/h' is positioned to the right of the speedometer.
