A vertical panel on the right side of the instrument cluster. It features a fuel gauge at the top, a temperature gauge below it, and a 'TEST' button at the bottom. There are also several indicator lights and a green button.

A row of warning lights and controls located below the main gauge. From left to right, they include: a green light with a running horse icon, a light with a gear icon, a light with a double arrow icon, a light with a triangle icon, a light with a circle icon, a light with a battery icon, a light with a drop icon, and a red light with a 'P' icon.
