FEATURE

■ Compact size and light weight

The EFS101 features compact chassis, which is significantly smaller than ones with the same tonnage in the industry. It is optimized for the flexibility in narrow space thanks to its short turning radius 1278mm. In addition, operators can take advantages of its light weight 1520kg to cover cargo lift and mezzanine usage.

■ User-centric design

The EFS101 ensures high ground clearance compared to regular forklifts with same tonnage and can ride smoothly on uneven surfaces. Operators can drive the EFS101 comfortably due to the ergonomic foot pedal design. The EFS101 also comes with the electronic power steering system, which provides a precise operation and enhances great maneuverability.

■ Integrated charger

The EFS101 is equipped with a 24V-25A integrated charger, which offers operators convenience and flexibility in daily usage.

■ Market-proven and mature components

The EFS101 uses market-proven spare parts, which promise safety and reliability. It comes with a 24V/220AH long-lasting AGM battery and the Curtis Controller, which helps increase efficiency and reduce operation costs.
